# About the Artist

Brazilian mural artist currently traveling through Europe, creating organic and nature-inspired artworks for interiors and creative spaces.

My work is inspired by slow living, natural forms, tropical landscapes and the emotional connection between people and spaces.

Over the past years, I've painted murals in Brazil and

Southeast Asia for apartments, hotels, guesthouses and hospitality environments.

I'm especially interested in projects that create warmth, calmness and identity through art, transforming walls into meaningful and welcoming experiences.

Currently available for murals and creative collaborations across Europe.
